To all the staff of The Shelter for Abused Women & Children:

The best thing can happen in your life is find a helping hand when you feel you lost your way. Fortunately all of you opened its doors for me and my kids when I had no one around. Now, I am ready to walk to a New life. And from the bottom of my heart I Thanks all of you for all the attention and care you gave to us. I will never forget that from a bad situation you made me feel a great experience. God Bless You All.

With too much love
