

OUTSTANDING ADMINISTRATIVE VOLUNTEER 2020

Linda Torp

Linda cares deeply about The Shelter's mission. She demonstrates this in the way she consistently provides professional results while working with Shelter team members on countless projects.

She is careful, precise, and extremely detail oriented. These qualities are invaluable to The Shelter as Linda works on important assignments for the CEO, the quality improvement department, and with our finance and fundraising staff. We are fortunate to have her on our extraordinary team of volunteers.

As an example of her work, Linda single handedly researched and prepared a state-of-the-art contact report that included every State Domestic Violence Coalition in the country. From there, she established an email list enabling the National Coalition Against Domestic Violence to send messages out nationwide at the touch of a button. For the first time, every domestic violence center across the country could be in direct communication. This was a very time-consuming project, but ultimately it significantly enhanced communication within the domestic violence movement.

Linda was an incredible asset in assisting the HR and finance department during a staffing transition last fall. Her attention to detail and meticulous organizational skills were invaluable in making for a smooth transition.

Linda's heart is truly with our children at The Shelter. She has been a wonderful partner between The Shelter and Windstar Gives Back, an event run by and for Windstar members that raises funds for charities serving at-risk kids in the Bayshore community. Linda's unwavering support has resulted in a number of generous grants that have supported The Shelter's on-site child care.

We all agree, working with Linda Torp is an absolute delight!
